

Benefits Lite for Clubs
and Associations

“ Benefits Lite for Clubs and Associations is a bespoke package of benefits that will support the health and wellbeing of your members. It sets you apart from other clubs and associations, by promoting your commitment to providing a high quality experience for your members ”

What is it?

Benefits Lite for Clubs and Associations is a tailored package of benefits that your members can access through our online portal. It provides a gateway to a wide range of discounted services, products and exclusive offers that your members can take advantage of, and can play a key part in engaging with your members, showing you value their commitment and membership.

Why choose Benefits Lite for Clubs and Associations?

While many commercial organisations have seen the benefit in making a package of benefits available to their employees, most clubs and associations have yet to offer this service to their members.

Our Benefits Lite for Clubs and Associations solution is tailored to meet the needs of you and your members. Not only does it provide your members with access to exciting benefits, like high street discounts and reduced rate holidays, it creates a benefits package that will be appreciated and valued by members helping you to increase participation and membership.

Benefits Lite for Clubs and Associations is flexible, fully adaptable and embodies our 'pay as you go, evolve as you grow' philosophy, ensuring you are always in control of the budgets and the benefits available to your members.

How does it work?

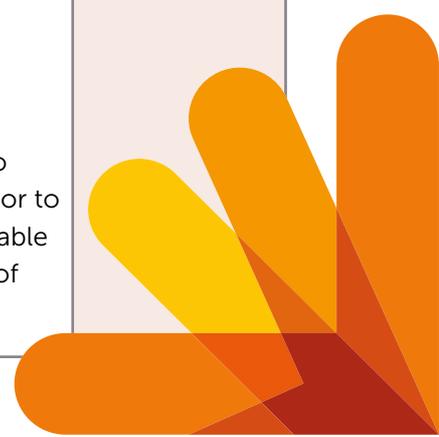

The gateway to the Benefits Lite solution is through our online portal at www.benefitslite.com. It's an easy to use website that your members will be able to navigate with ease.

We offer a range of different options, dependent on your Club or Association's size and requirements, including the ability to personalise your Benefits Lite solution using your own branding and logo.

We also offer a range of added value extras, such as the ability to post news articles or create message boards within your portal, which have been shown to improve both the effectiveness and speed of communication with your members. It removes the need for texting, group emails and the reliance on word of mouth communication.

A full breakdown of the benefits and optional extras can be found below:

Package	Branding	Benefits	Cost (exc VAT)
